Managed Services Contract Win

ECSC (AIM: ECSC), the provider of cyber security services, is pleased to announce a further contract win with a major food producer to provide 24/7/365 cyber security monitoring and breach detection. The solution utilises the ECSC proprietary Kepler Artificial Intelligence, managed from the Group Security Operations Centres in the UK and Australia.

The contract will generate £300,000 in revenue over a three-year period, representing an increase of more than 10% to the Managed Services order book.

Ian Mann, CEO of ECSC, commented:

"We are delighted to further expand our support to this existing Managed Services client, and helping them meet the Information Commissioners' Office (ICO) expectations for cyber security monitoring and breach detection under GDPR."
