Notes to Editors

ECSC is a proven provider of cyber security services with a blue-chip client base that offers a comprehensive range of solutions.

The Company has over 16 years' experience in the design, implementation and management of cyber security solutions. ECSC's consultancy-led approach, and its combination of custom methodologies and in-house proprietary technologies, enables the Company to provide individually tailored services to its clients. The Company has significant intellectual property, including bespoke products delivering remotely managed cyber security services and custom-made internal support and delivery systems.

The Company floated on AIM in December 2016 to accelerate its growth strategy and to take advantage of the importance attached to cyber security by company boards as a result of the recent proliferation of high profile cyber security breaches.
